Professional Summary

B.Sc. Computer Science graduate (2026) with strong technical skills in Python, Java, Web Development, Data Analysis, and Artificial Intelligence. Completed multiple internships in Data Analytics, AI, UI/UX Design, Full Stack Development, and MERN Stack Development with hands-on project experience. Developed AI-powered prediction systems and responsive web applications using modern technologies. Seeking an entry-level role as a Data Analyst, Python Developer, Full Stack Developer, or Software Engineer.

Education

Bachelor of Science (B.Sc.) – Computer Science
Government Arts and Science College for Women, Orathanadu
Expected Graduation: 2026

Internships & Training

Data Analyst Intern	Novitech R&D Private Limited
• Analyzed datasets to generate actionable business insights. • Identified trends and patterns to support data-driven decision making.	
Artificial Intelligence Intern	Novitech R&D Private Limited
• Developed a project to detect and track moving objects using AI techniques. • Applied machine learning concepts for real-time data processing.	
UI/UX Designer Intern	Novitech R&D Private Limited
• Designed user-friendly website interfaces using Figma. • Improved usability and visual consistency based on UI/UX principles.	
Full Stack Development Intern	Novitech R&D Private Limited
• Built responsive web applications using front-end and back-end technologies. • Developed dynamic web features based on business requirements. • Participated in application testing and deployment activities.	
MERN Stack Development Intern	Novitech R&D Private Limited
• Developed applications using MongoDB, Express.js, React.js, and Node.js. • Built RESTful APIs and integrated database functionalities. • Improved application performance and user experience.	
Power BI Trainee	Novitech R&D Private Limited
• Created dashboards and visual reports for business data analysis. • Transformed raw data into meaningful visual insights.	
Python Developer Trainee	Intellipaat
• Developed Python programs to solve practical problems. • Strengthened coding, debugging, and problem-solving skills.	

Technical Skills

Programming Languages: Python, Java, C++, JavaScript, HTML, CSS

Databases: SQL, MongoDB

Tools & Technologies: Git, GitHub, Figma, Excel, WordPress, ChatGPT

AI/ML Concepts: Artificial Intelligence, Machine Learning Basics, NLP Fundamentals

Platforms: Google Colab

Projects

Personal Portfolio Website

- Developed a responsive portfolio website showcasing projects, certifications, and skills.
- Implemented structured UI design using HTML, CSS, and JavaScript.
- Used Git and GitHub for version control and project management.
- Deployed online using Vercel.

HealthAI – Disease Prediction System

- Built a machine learning-based disease prediction system using Python.
- Generated health insights through predictive analytics techniques.

Clone Attack Detection using Random Forest and NLP

- Developed a security-focused system to detect clone attacks.
- Applied Random Forest algorithm and NLP-based feature extraction.
- Improved user data protection and prediction accuracy.

Certifications

- Data Analysis – Novitech R&D Private Limited
- Artificial Intelligence – Novitech R&D Private Limited
- Machine Learning – Novitech R&D Private Limited
- Full Stack Developer – Novitech R&D Private Limited
- MERN Stack Developer – Novitech R&D Private Limited
- Power BI – Novitech R&D Private Limited
- SQL – Novitech R&D Private Limited
- Python Developer – Intellipaat
- Fundamentals of Artificial Intelligence – IBM
- Fundamentals of Web Development – IBM
- 7 Days Frontend Challenge – TechDrew

Achievements & Activities

- Completed multiple internships in Data Analytics, Artificial Intelligence, UI/UX Design, Full Stack Development, and MERN Stack Development.
- Participated in technical workshops and skill-development programs.
- Developed and deployed multiple academic and personal projects.
